

Summary of Meeting
BDAC Water Transfers Work Group
November 12, 1998
Fourteenth Meeting

Discussion Items

- CALFED provided an overview of schedule of anticipated release of CALFED documents. A public version of the Revised Phase II document, including CALFED's recommended preferred alternative, will be available in mid-December. This document will include summaries of the various Program components, including the water transfer program. Separate program plan documents detailing each program will also be available. A revised Programmatic EIR/EIS will be available spring of 1999.
- Work group participants discussed the current draft detailing the recommended water transfer framework and generally concurred with the approach. Several comments were offered during the meeting, with some discussion among participants. Written comments were also offered by San Diego County Water Authority and the Bay Area Urban Coalition. All comments will be reviewed and incorporated, as warranted, into the December public draft. The entire meeting focused on these comments, most of which were editorial in nature or pointed out needed clarifications or corrections.

The next meeting of the BDAC Water Transfer Work Group is scheduled for:

Thursday, January 28, 1999 from 9:30 a.m. to 12:30 p.m. (Location to be determined)
